*° The Chief, Special Security Center, has been selected as the Agency representative to a Community drug enforcement task force. The task force, which will be comprised of representatives from various agencies, will include an individual from the Vice President's Office. The objective will be to formulate policy on the protection of sources and methods while encouraging greater flow of intelligence to law enforcement officers concerned with illicit drugs. As both intercept and overhead reconnaissance data will be involved, there is an apparent need to decompartment some SCI information.

25X1

° The Office of Security field offices, in cooperation with the Operations Support Branch, provided detailed and varied support to several Agency components during the reporting period. One item of significance was the recent liaison between the New York Field Office and the

MEMORANDUM FOR: Director of Security

STAT

SUBJECT:

Drug Enforcement Task Force

STAT

[redacted] finally got back to [redacted] who made clear that he was only "scoping the problem," and not making any decisions on assignments to the [redacted] Task Force. Bob has gathered the following: STAT

- It will be a small task force, which will last no more than 30 days.
- The unit will formulate "policy" on the protection of sources and methods, while encouraging a greater flow of intelligence to law enforcement officials concerned with drugs.
- It will involve the police on both the Federal and local level - a very tricky requirement.
- This will involve both intercept and overhead reconnaissance data, so there will be a requirement to decompartment SCI information.
- The Department of Justice will not be represented, but there will be an individual from the Vice President's office.

[redacted] sees this as an SSC or PPG type assignment, but not Domestic Security Branch. It should not be full-time; SCI is involved; [redacted] is willing to take it on: and I would go with him. Over to you
